# POMPEII

the immortal city

March 29 - June 23, 2024

## SPONSORSHIP INFORMATION

This exhibition is made possible by  ARLINGTON TOMORROW  
FOUNDATION

*Pompeii: The Immortal City* is a world-class multimedia experience that takes visitors on a journey back in time to Rome just before, during, and after the fateful eruption of Mount Vesuvius in AD 79. Visitors will hear and feel the roar of the volcano erupting before their eyes while they take in the wonder of original artworks and artifacts. Through interactive digital and hands-on experiences with lifelike replicas, visitors can also play the role of the 18th century archaeologists who discovered the ruins.

The new AMA will be the only place in Texas to see *Pompeii: The Immortal City*.
